

EXCLUSIVE SAFETY TECHNOLOGIES

Safety at sea is our main priority. We manage all research, design and production processes with the utmost care so as to offer certified equipment for all nautical fields, with the highest production standards.

All research and development activities are certified by the Department of Applied Science and Technology of the Polytechnic University of Turin, in accordance with EU regulations.

THE PRODUCTION PROCESS AND TRACEABILITY

With the aim of making inflatable life jackets more reliable, in 1994 Veleria San Giorgio introduced the Unique Product Code system. As the only manufacturer in the world to employ this type of technology, VSG is now able to identify all materials and individual components utilised through distinct alphanumeric codes.

È CONFORME ALLA NORMA // IS IN COMPLIANCE WITH THE STANDARD
ISO 9001:2015

Production processes are controlled via software specially developed by VSG, covering 100% of production so each product can be traced back to its buyer with absolute precision. This drastically reduces manufacturing defects (less than 1/10000 of returns), guaranteeing each buyer a unique product in the truest sense of the word and – most importantly – the highest degree of safety when needed.

LIFEJACKET MANUFACTURER

Thanks to their ergonomic features, our life jackets guarantee an optimal position in the water and great stability. In addition, the vests offer enough buoyancy to rotate and tilt an unconscious person, so as to always keep the airway out of the water

SPINNAKER EASYFIT 180

High-performance life jacket, compliant with ISO 12402-3, Class 150, with an actual buoyancy exceeding 180N, ideal for ensuring maximum safety on the open sea even in adverse weather conditions.

Inflatable life jacket – ISO 12402-3 Certified, Class 150

Designed for offshore recreational boating, long-distance navigation, and any situation where personal safety is a top priority. Thanks to its compact structure and ergonomic design, it offers high comfort and complete freedom of movement, making it easy to wear over any type of clothing, including technical jackets and foul weather gear.

The activation of the life jacket can be automatic or manual, with a reliable and easy-to-maintain system. The excellent fit and balanced weight distribution make it perfect for prolonged use without tiring the wearer.

Safety, comfort, and performance: everything you need to navigate with peace of mind.

Product Characteristics:

- ISO 12402-3 Certification – Class 150
- Actual buoyancy exceeding 180 Newtons
- Compact and comfortable design
- High freedom of movement
- Body side made of mesh fabric + neoprene
- Zipper closure/opening with Quick Open System
- Waist strap with lateral acetal buckle and quick-release system
- Crotch strap with quick-release buckle
- Recovery assist handle
- Lifting handle
- Easily adjustable back strap

SPINNAKER EASYFIT 180

Single-compartment buoyancy chamber made of PA 420 fabric with a PU coating, featuring electronically controlled high-frequency welds to ensure maximum sealing and durability over time.

Designed to ensure an optimal body position in the water and excellent stability, the chamber provides sufficient buoyancy to automatically rotate an unconscious person, positioning them face up and keeping their airways clear of water.

Even when fully inflated, the ergonomic design allows for easy swimming, enabling the user to reach a safe point or quickly climb onto a rescue raft, ensuring mobility and responsiveness even in emergency situations.

ACTIVATION SISTEM:

- **Automatic:** In the event of a fall into the sea, the system activates automatically upon contact with water. Activation can occur via the UML MK5 salt activator, which is triggered by the dissolution of a water-soluble tablet, or through the Hammar hydrostatic system, which operates based on water pressure. Both ensure a quick and reliable response in emergency situations.
- **Manual:** Inflation is achieved by manually operating the designated activation lever. This mode is equipped with a UML MICROMANUAL manual activator or a manual Hammar, and it will activate exclusively upon the operator's intervention, providing full control in operational situations.
- **Oral:** Inflation can also be done using the designated oral tube, equipped with a non-return valve and a protective cap. Simply blow into the tube to inflate the buoyancy chamber, ensuring an effective and immediate emergency mode.

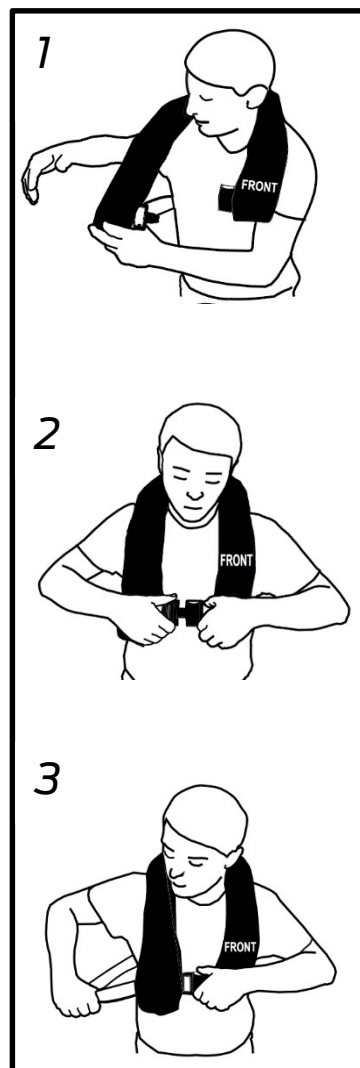

SPINNAKER EASYFIT 180

FEATURES

code: 09360 – 09360/H - 09361

Type	Giubbotto di salvataggio
Activators	09360 UML MK5 automatic 09360/H M1 EC Hammar Manual 09361 UML Micro Manual manual Oral Tube: available on all versions
Canister	38 gr. 1/2" GAS threading
Effective buoyancy	> 180 N
Class	150
Fastening mechanism	Quick-release buckle in acetal resin with integrated adjustment
Certifications	ISO 12402-3
Size	Adult
Weight supported	> 40 kg
Casing	Multi-layer technical fabric PE + Elastan
Chamber	Single chamber, material PA 420 PU COATED, color yellow and fluorescent yellow
Product packaging	Bag PL 200D
Product dimension	50 x 33 x 9 cm ± 5%
Product weight	09360 - 990 gr ± 5%
Packaging	60x40x40 cm (box 10 pcs)
Warranty	24 months
Inspection	Each 24 months
Accessories on request	Sprayhood, automatic emergency light, safety line
Spare parts	Whistle, rearming kit
Veleria San Giorgio reserves the right to modify the technical specifications without prior notice.	

CODE	PRODUCT NAME	ACTIVATION	ACTIVATORS
09360	SPINNAKER EASY FIT 180	AUTOMATIC	UML MK5
09360/H	SPINNAKER EASY FIT 180	AUTOMATIC	HAMMAR MA1/EC
09361	SPINNAKER EASY FIT 180	MANUAL	UML MICROMANUAL

Spare parts:

	CROTCH STRAP	09146
Use of this accessory improves the body's inclination, stability and positioning in the water		

	WHISTLE	25180
Mandatory accessory that permits an emergency sound signal to be issued. ISO 12402-8 certified		

Rearming		
UML: rearming kit (26233), water-soluble tablet (25005), , green MK5 pin (25003/MK5), green Micro-Manual pin (25003/UML2) Hammar: rearming kit (26360) Canister 33 g (26033)		

ACCESSORIES

	2 steel hooks	11173/OVER
SAFETY STRAP Length: 2 metres Material: Stainless steel		

	2 aluminium hooks	11174/OVER
SAFETY STRAP Length: 2 metres Material: Aluminium		

	Elast. 2 steel hooks	11176/OVER
SAFETY STRAP Length: 2 metres Material: Stainless steel		

	Elast. 2 aluminium hooks	11177/OVER
SAFETY STRAP Length: 2 metres Material: Aluminium		

	3 aluminium hooks	11175/OVER
SAFETY STRAP Length: 1.4-2 metres Material: Aluminium		

	Steel hook + ring	11178/OVER
SAFETY STRAP Length: 2 metres Material: Stainless steel		

	Sprayhood	09145/SK
Reduces the risk of secondary Drowning via inhalation of nebulised water. Improves detection of the castaway.		

	LED light	03030
Automatically activates upon falling into the water. Renders the device visible for up to a mile. SOLAS M.E.D.- certified and USCG approved.		

	Badge holder	751/PB
Ideal for safely and professionally identifying employees and visitors.

EU TYPE EXAMINATION CERTIFICATE

CERTIFICATE Nr. PPE063424CS/001

We certify, as notified body (no.0474), that the following personal protective equipment is in compliance with the essential safety requirements of the Regulation (EU) 2016/425.

<i>Description</i>	Life jackets
<i>Type</i>	SPINNAKER 180
	09330 , 09331 , 09360 , 09361
<i>Manufacturer</i>	VELERIA SAN GIORGIO S.R.L.
	VIA ALCIDE DE GASPERI 37 H
	16030 Casarza Ligure (GE)
	ITALY
<i>Reference standards</i>	EN ISO 12401:2009; EN ISO 12402-3:2020, EN ISO 12402-9:2020
<i>Reference documents</i>	Regulation for the certification of Personal Protective Equipment (RC/C.127)

Issued in Genoa on
May 24, 2024

This Certificate is valid until
May 23, 2029

This Certificate consists of this sheet plus an attachment
